

May is Better Hearing and Speech Awareness Month

Millions of Canadians have communication disorders ...

The early stages of communication disorders are easier to spot when you know the signs. Early detection can improve treatment and quality of life. For more information visit, www.identifythesigns.org.

Audiologists, Communicative Disorders Assistants, Speech-Language Pathologists and Teachers of the Deaf and Hard of Hearing can help.

Speech, language, and hearing disorders are treatable and early detection is a major contributor to speedier recoveries, shortened treatment periods, and reduced costs for individuals and society alike. Early detection of communication disorders is vital! If you are concerned about your child's speech, language and hearing development, contact a communication specialist this May, Better Hearing and Speech Month. A listing of Audiologists and Speech-Language Pathologists is available by contacting the [College of Audiologists and Speech-Language Pathologists of Ontario \(CASLPO\)](http://www.caslpo.com) at 1-800-993-9459 or visit www.caslpo.com. Visit [Speech-Language & Audiology Canada \(SAC\) www.maymonth.ca](http://www.maymonth.ca) to learn more about the importance of early detection and intervention of communication disorders, and the role that speech-language pathologists, audiologists and communication disorders assistants.
